DATA PROTECTION & SECURITY BREACHES

Definitions:

For the purpose of this policy:

- *Breach* means unauthorized access or acquisition of computerized data that has not been secured by encryption or other methods or technology that renders electronic files, media, or databases unreadable or unusable. Good-faith acquisitions of personal information by an employee or agent of the employee is not a breach of security of the system if the personal information is not used or subject to further unauthorized disclosure.
- *Private information* is defined as information protected under federal laws such as, but not limited to, the Family Educational Rights and Privacy Act (FERPA), information defined as confidential or exempt in NDCC Ch. 44-04, and data defined as “personal information” in NDCC 51-30-01(4). Private information does not include publicly available information that is lawfully made available to the general public pursuant to state or federal law or regulation.
- *Security system plan* includes:
 - Records, information, photographs, audio and visual presentations, schematic diagrams, surveys, recommendations, communications, or consultations relating directly to the physical or electronic security of a public facility, or any critical infrastructure, whether owned by or leased to the state or any of its political subdivisions, or any privately owned or leased critical infrastructure if the plan or a portion of the plan is in the possession of a public entity;
 - Information relating to cybersecurity defenses, or threats, attacks, attempted attacks, and vulnerabilities of cyber system operations relating directly to the physical or electronic security of a public facility, or any critical infrastructure, whether owned by or leased to the state or any of its political subdivisions, or any privately owned or leased critical infrastructure if the information is in the possession of a public entity;
 - Threat assessments;
 - Vulnerability and capability assessments conducted by a public entity, or any private entity;
 - Threat response plans; and
 - Emergency evacuation plans.

Data Protection

The Sargent Central Public School will take reasonable security measures to guard against the foreseeable loss of private information. In determining the reasonableness of the district’s security measures, the Board will consider the value of private information in the district’s possession and the potential damages associated with the loss or compromise of this data. All security measures will be delineated in a security system plan, which is exempt from North Dakota open records law. Creation of, discussion of, and revision to this plan will occur in executive session in accordance with North Dakota law

Security Breach

Any identified or suspected breach or cybersecurity incident that affects the confidentiality, integrity, or availability of information systems, data, or services must be reported immediately to the Superintendent. The Superintendent shall put procedures in place to notify state residents affected by the breach and any state agencies as required by law.

BUS SCHEDULING AND ROUTING

The Superintendent shall have prepared descriptions and maps of district school bus routes and schedules as fixed by the Board for distribution to parents of students eligible for school bus transportation.

Bus routes shall be established through the District to best accommodate the majority of eligible students.

Children shall not be put off the bus until reaching their destination.

The Board may elect to pay family transportation to families who meet the bus at a scheduled bus stop in order to minimize the length of time all students are on the bus or to avoid running a bus on secondary roads.
